AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings of claims in the

application:

LISTING OF CLAIMS:

Claim 1. (Original) A method of treating a skin disorder caused by an insect

bite or sting wherein a composition comprising more than  $90\,\%$  by weight alkanol selected

from  $C_{1\cdot4}$  alkane-monools, -diols and -triols and less than 10% by weight water, is applied

to the area of skin affected by said disorder, and is retained in contact with the said area of

skin for a period in the range 1 minute to 48 hours, whereby the sting or bite is cured.

Claim 2. (Original) A method according to claim 1 wherein the said period is

in the range 5 minutes to 6 hours.

Claim 3. (Original) A method according to claim 1 in which a first dose of

said composition is retained in contact with the skin for a period in the range 5 minutes to 6

hours and then a second dose of the composition is applied to the said area of skin and is

retained in contact with the said area of skin for a further period in the range 5 minutes to 6

hours.

Claim 4. (Original) A method according to claim 1 wherein the composition

further comprises a polymeric gelling agent dispersed or dissolved in the alkanol.

- 3 -

Second Preliminary Amendment Application No. 10/642,650

Attorney's Docket No. 010085-027

Claim 5. (Original) A method according to claim 4 wherein the active sting or

bite curing ingredient consists essentially of said alkanol.

Claim 6. (Original) A method according to claim 5 wherein the said active

consists essentially only of said alkanol.

Claim 7. (Original) A method according to claim 4 wherein said composition

consists essentially only of alkanol, gelling agent and water.

Claim 8. (Original) A method according to claim 1 wherein the alkanol is

ethanol

Claims, 9-36 (Canceled)

Claim 37. (Original) A method of treating a skin disorder by applying to the

skin a composition comprising more than 90% by weight of an alkanol selected from

isopropanol, n-propanol, mixtures of isopropanol and n-propanol, mixtures of propanol,

selected from isopropanol, n-propanol and mixtures thereof, and ethanol in which the ratio

of propanol to ethanol is in the range 10:1 to 1:10, a polymeric gelling agent in an amount

in the range 0.1 to 10% by weight and less than 10% by weight water.

- 4 -

Second Preliminary Amendment Application No. <u>10/642,650</u> Attorney's Docket No. <u>010085-027</u>

Claim 38. (Original) A method of treating a skin disorder by applying to the skin a composition comprising more than 90% by weight of an alkanol selected from  $C_1$ ,  $C_3$  and  $C_4$  alkanols, mixtures thereof and mixtures thereof with ethanol wherein the ratio of ( $C_1$  and/or  $C_4$  alkanol): ethanol is in the range 1:10 to 10:1, a polymeric gelling agent in an amount in the range 0.1 to 10% by weight and less than 10% by weight water.
